

## Brothers Join India Orphanage

*September 2013*

We recently received this picture of three precious young boys from Reverend Thomas in India. Our hearts were touched as we read the tragic story of their young lives. These brothers were born into a low caste in a colony that makes their homes in fields near the Feed My People orphanage in Tenali. The landowner allowed their parents to construct a humble temporary shelter in his rice field. They lived there year round and they and their parents hunted rats in the field for food. To earn a little money, the parents would catch cobras and sell them for their skin. In April this year, an incident occurred that would change these boys lives forever. Both parents were bitten by a

cobra that slipped from their hands, immediately killing them. After the parents died, the landowner tore down their home and sent these boys away. One of the church members brought the boys to the Feed My People orphanage, and as they have so many other times, made room for them and welcomed them.

I'm sure they were afraid and unsure of what would happen to them, but Reverend Thomas assures us they have all adjusted well and are happy now. While at home with their parents they did not have the opportunity to attend school. However, Surya has now started attending school and the younger ones will have the same opportunity when they are old enough. Please pray for these brothers to continue to do well as they learn about the love Jesus has for them. Your gifts continue to provide food, shelter, clothing, education and Biblical training for these brothers and the other 230 India orphans we support.

## Five Students Awarded Scholarships

In the March 2013 newsletter, we introduced the Allan and Harle Eliason Scholarship Fund. Since then, several of you have donated to help deserving young people involved in the ministries supported by Global Outreach to be able to further their education. Two students in India and three students in Congo have been awarded scholarships for the 2013-2014 school year. Thank you for investing in the lives and futures of these young people.

India: Kamala, age 18. Kamala was rescued from a dangerous life-style which included working at a brothel. She spent two years at Feed My People home and completed the medical training program. Now she is studying to be a nurse and plans to use her training to help the poor.

India: Joshua, age 21. As the son of parents with leprosy, Joshua was raised in the Feed My People Orphanage along with his brother and sister for the past 14 years. He has completed high school and is now a student in the lab technician two year program.

Asumani, age 24. Asumani works with the CCC orphans on every school break. He has a desire to work at CCC when he completes his degree in Management.

Chantal, age 27. Chantal serves as a translator for mission teams that visit CCC. She is working on a degree in Computer Science.

Salama, age 20. Salama serves as a translator for mission teams at CCC. She is working to complete a degree in Development Studies.

## Prayer Needs

- Safety and protection for orphans and staff at Congo for Christ as they recently suffered a robbery
- All of the orphans supported by Global Outreach as they begin a new school year
- Christians who face persecution around the world

*May God bless you for your faithful and generous support of Global Outreach.
