

Changing Lives for Eternity

August 2014

Reflecting on the ministries supported by Global Outreach around the world, my thoughts immediately turn to the many compassionate and faithful partners God has blessed this ministry with. We have presented so many needs already this year, and you have responded so generously.

New bicycles for orphans in Vietnam

Through your faithful and generous giving we have been blessed to provide food and a variety of support for orphans in Vietnam as well as new bicycles to help them travel to and from school. We send monthly support to help rescue and house, feed, clothe and educate girls in Thailand. Your gifts are building an orphanage at Horizon of Hope in the Philippines.

Some of the girls living at Sameong Girls Home in Thailand

In India we provide monthly funds to purchase food for orphans in thirteen orphanages, provide support for about sixty national pastors and their families,

School supplies for orphans in India

as well as support for teen girls, medical vocational school and Bible School. Last month we reported about the terrible fire and the resulting loss of homes for sixty-five families. Your timely response made it

New blankets and clothing for fire victims in India

Changing Lives for Eternity cont'd from page 1

possible for us to send funds to help two pastors rebuild their homes. Your gifts have also provided blankets and new clothing for those affected by this tragedy.

Every month we send the necessary funds to provide total care for the fifty-seven precious orphans at Congo for Christ, as well as support for the Bible School. This includes paying salaries for the staff, food, medical care, education costs and so many other needs that arise. We are still rejoicing over the provision of the funds to build a beautiful new school in Congo. *In September we will provide a full report about Mango Tree School and the mission team visit.*

Pastor Chris and Pastor Jeremiah Bible School graduation in Congo

Yes, it takes all of us working together, giving, going, and praying, to keep supporting all of these precious people who are depending on us. While all of these ministries are important and provide care for so many hurting people, we are once again reminded of the real reason for all that we join together to do: **changing lives for eternity by sharing the love of Christ and allowing those on the front lines to minister and share the gospel.** Reverend Thomas in India and the nearly two hundred local ministers; Reverend Wanchai and his

wife, Pensri, in Thailand; Reverend Jeremiah, Daniel, and the entire staff at Congo for Christ; pastors Mladen, Karmelo, Sasha and other ministers in Bosnia; Jan and Don Slaton in the Philippines; *LiSu at *Bethel Orphanage in Vietnam, depend on us to faithfully support them, as we pray for them to reach the lost and present the good news of Jesus to a hurting world.

Imagine with me, the joy we will share one day when together we all sit at the feet of Jesus and

know that because we partnered together we were privileged to be a part of changing lives for eternity with the love of Christ. Thank you dear partners for your faithfulness, and please know that every gift you give is prayerfully and carefully used to reach a hurting world in Jesus' name. I hope you can see the difference your support is making and the critical role your partnership plays in the ability of Global Outreach to accomplish our God-given mission of impacting lives for eternity.

**names have been changed*

Global Outreach Appoints Sponsorship Coordinator

We are thrilled to announce the creation of a new volunteer staff position of "Sponsorship Coordinator." We are so happy that Ashleigh Nye has accepted this position and will be using her passion and talents to oversee and expand the sponsorship program.

After graduating from Bowling Green State University in Ohio, Ashleigh moved to Washington, DC to take a position at the Department of Justice. Having lived in a small town in Ohio, Ashleigh grew up knowing the importance of faith, family and community. Upon moving to DC she quickly connected with National Community Church (NCC), which soon felt like home. In 2012 she went on her first international mission trip, serving at Congo for Christ (CCC) in Uvira. Her hometown soon rallied around her to aid CCC's efforts and continues to be a source of ongoing support. The Lord has used the Congo to birth a passion in her to care for orphans as if they were her own. Ashleigh has just returned from her third mission trip to Congo. Ashleigh will soon wed Jason Fields, who is also an avid supporter of Global Outreach in a number of vital ways.
